## **DETAILED ACTION**

1. Claims 1-36 are allowed.

## **REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance:

Applicant's arguments that Lotito do not teach the claimed limitations are persuasive with respect to defining a plurality of classes and assigning a one of the process-classes to each process to be executed by the plurality of independent processors using the shared memory; defining an execution time slice for each of the process classes; and permitting each process executed by each of the plurality of independent processors to be executed without interruption until the execution time slice defined for the process class has expired or the processor has completed execution of the process.

None of the prior arts of record teach or suggest the claimed limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
